Mrs. Bonet is a Texas registered interior designer with 10+ years of experience in the architectural industry. The majority of her experience has been in production of architectural drawings (including renderings), but she also has limited experience in project management, including coordination and review of consultant drawings and code research. Mrs. Bonet has assisted in development of proposals/contracts and construction administration. As an interior designer, she also performs interior design duties, including selection of interior/exterior finishes, development of tile layouts/designs and sample/color boards. Her primary role at Total Engineering Services, LLC is to assist the architects with project design and modeling, development of architectural drawings and selection of interior finishes.
